

**Bike Friendly Kalamazoo
Planning Meeting
KRESA Main Offices
March 26, 2018; 4-5pm
Ideas Received After the Minutes Were Released on April 2, 2018**

This is a running list of ideas received after April 2, 2018. They are related to topics covered in the March 26 planning session, but were received too late to be included in the minutes.

They are offered without comment, and, without attribution (just as the ideas released in the meeting minutes were not attributed to any individual) to facilitate impartial review and consideration.

It is not intended that this list be open and updated forever, so it will not be updated after a date which will probably be announced later, but could also be stopped at any time without further notice.

###

Have some sort of selective law enforcement effort that is aimed at bicycle related offenses, both on the part of bicyclists and motorists. I think if this was widely publicized, this could reduce gripes that bicyclists are never ticketed for traffic offenses, and also put motorists on notice that they need to respect bike-related laws, as well.

Review the laws of other states to see whether Michigan could use more bike related laws than have been considered so far.

BFK could send ideas for news stories to the media.

Find and begin signing the most obvious routes in the Southwest Michigan Bikeway, e.g., connecting Portage and Kalamazoo via Oakland.
