

Michigan Recumbent Rally – West

Saturday, September 12, 2015, 10 am to 2:30 pm

WMU Parkview Campus, College of Engineering, Kalamazoo

To Grand Rapids

We will gather in the East Parking lot, enter campus from Parkview and Drake, note campus loop is ONE-WAY. Parking is free. If you are coming from out of town, take Stadium Drive exit 36A from US 131 east to Drake, then south through the traffic light at Parkview Avenue.

Join us for test rides and information on recumbent bikes (and trikes.) This event is free and open to the public, drop in any time. Enthusiasts are welcome, along with anyone who is curious about these vehicles. Hard to find in bike shops, this event will feature a variety of recumbent pedal-powered machines, most available for test rides on the low-traffic campus road network. If you are a recumbent owner in the area, please come on by to share your experiences. In case of rain, we will use the nearby parking structure. Contact Paul Pancella at (269)373-5413 or Paul.Pancella@WMich.edu for more information.
